PROFESSIONAL SUMMARY

Founding Engineer and Full-Stack Developer with 2+ years of experience building and scaling production-grade B2B web applications. Specialized in backend development, real-time systems, and system design using MERN stack, PostgreSQL, Redis, and WebSockets. Experienced in leading teams, owning deployments, and delivering scalable solutions used by multiple clients in production.

PROJECTS

PakshAI | *TypeScript, Node.js, WebSockets, PostgreSQL* [Live](#)

- Architected a real-time communication platform enabling low-latency, bi-directional client-server messaging using WebSockets.
- Handled 100+ concurrent connections with reliable state synchronization and backend processing.
- Optimized message flow and server performance to support real-time workloads in production environments.

Buzzish | *JavaScript, React, MongoDB, WebSockets, JWT* [Code](#)

- Designed a real-time chat application supporting text and image messaging for 500+ users using WebSockets.
- Improved message delivery latency by 30% by optimizing backend message handling and connection management.

CodeBuds | *TypeScript, Next.js, getStream* [Live](#)

- Created a video interview platform enabling real-time video calls using getStream APIs.
- Integrated screen sharing, recording, and interview workflows to support technical interview use cases.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, HTML, CSS

Backend Development: Node.js, Express.js, REST APIs, WebSockets

Frontend Development: React, Next.js, TailwindCSS

Databases & Caching: PostgreSQL, MongoDB, Prisma, Mongoose, Redis

System Design: Real-Time Systems, Event-Driven Architecture

DevOps & Tools: Git, GitHub, Docker, CI/CD, Linux, Postman, VS Code, Bash

ACHIEVEMENTS

- Devised and deployed full-stack projects for production environments, including real-time data analytics features; codebases are publicly accessible on GitHub, now serving as reference models for 100+ aspiring developers.
- Completed intensive industry-focused training in Full-Stack Development, DevOps, and Web3 as part of 100xDevs Cohort 3.0.
- Regularly practice Data Structures and Algorithms and comfortable solving easy to medium-level problems in technical interviews.

EDUCATION

Bachelor of Science

Sri Guru Ram Rai University, Dehradun

Aug 2022 – Jul 2025
